

Women 35-39

We have included times for distances recorded for best performances by the National Union of Track Statisticians – 15 kms, 10 miles, half-marathon and marathon. Beyond these we show the ultra-distances in tens of miles up to 100 miles, tens of kilometres up to 50 kilometres, plus 100 kilometres and the three standard elapsed time runs of 6, 12 and 24 hours. Recorded elsewhere, but not published, are best times set at various other distances which are rarely run but which might crop up as intermediate times in major marathons.
