

Records have been included for distances recorded for best performances by the National Union of Track Statisticians – 5 kms, 5 miles, 10 kms, 15 kms, 10 miles, half-marathon and marathon. Additionally shown, where found, are the ultra-distances in tens of miles up to 50 miles, plus 100 miles, and tens of kilometres up to 50 kilometres, plus 100 kilometres. No performances for the three standard elapsed time runs of 6, 12 and 24 hours have been found.

In the column showing the position in the race, the first number, as long as it is not preceded by ‘/’ is the placing in the race overall. A following number, after ‘/’ is the placing among masters runners. Any number after two occurrences of ‘/’ is the placing in the masters age group. These placings have been investigated thoroughly but are still subject to correction if any further information comes to light.

+ = Official intermediate time in a longer race.
